

Don't let code compliance get in the way of providing exceptional patient care. Bring excellence to your coding and documentation with Access Healthcare's Global Coding services so you can focus on creating great patient experiences.

Medical Coding Services

Coding is a small, but integral piece of the revenue cycle. And often the most daunting. From ICD-10 to changing payer trends, there's a lot to take your focus away from your number one concern - the patient. Leverage Access Healthcare's coding and auditing services so your revenue cycle can run like a well-oiled machine.

- Ensure ICD-10 Compliance
- Reduce AR backlogs
- Decrease in DNFB
- Improve quality of care
- Improve provider documentation
- Reduce turnaround times
- Enjoy more reliable data reporting
- Flexible engagement

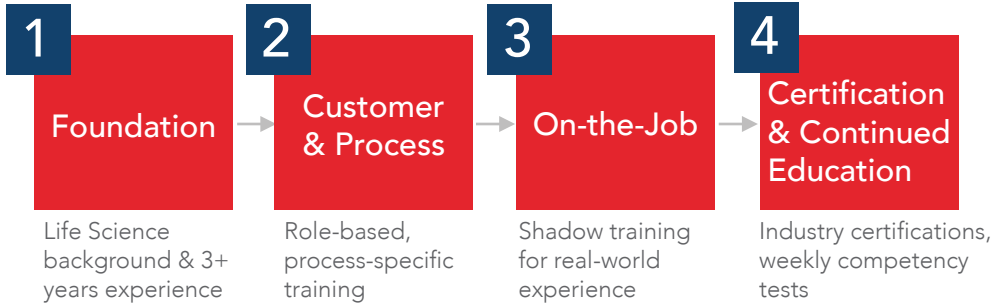

People. Process. Technology.

Rest easy knowing you have the right people on your team, following a time-tested process and using top-of-the-line technology. It's like having your own coding department without all the expense and hassle.

MEDICAL CODING TRAINING METHODOLOGY AND AUDITS

One of the biggest obstacles to in-house coding is attracting and retaining experienced coders. You don't have to worry about this with Access Healthcare. Each coder deployed to your account has been thoroughly vetted, trained, and continues to be tested on a weekly basis. Audits are built into the process at every level to ensure accuracy at each step along the way.

BEST PRACTICES

Transform your Revenue Cycle Management by leveraging Access Healthcare's simple, yet proven process. Understand how coding fits into the larger RCM puzzle with regular updates and suggestions from subject matter experts on ways to improve in other areas.

TECHNOLOGY

Achieve unmatched transparency and oversight to gauge productivity and resolve issues with the arc.in platform. See exactly who is working on your account, what they're working on, provide feedback/resolve logs and even track their auditing scores. The platform is designed to give you 100% transparency and peace of mind.

Bring excellence to your back office Revenue Cycle Management. Spend less time worrying about getting paid and more time on creating great patient experiences. Leverage Access Healthcare to relieve costly onshore labor costs across some or all of your RCM disciplines.

Story Spotlight

OBJECTIVE

Find and capture savings.

The customer needed to improve overall cash flow and enable easier, more simplified access to revenue. It was imperative to discover the levels of inefficiency through a comprehensive assessment and raise levels of efficiency in other areas burdening financial growth.

SOLUTION

In approximately 30 days, Access Healthcare service experts conducted a comprehensive assessment of the organization's AR footprint. A summary of the assessment concluded substantial opportunity to improve cash flow in multiple areas totalling **\$10 million.**
